She helped with Cubans, on Committee, until flow refugees so great govt said dont worry about getting jobs first. Many, many worked at Perkland. Never saw as many male nurses anywhere in her life. Friend of late Ed Schmillie (phonetic), meeting in his home Cubans, probably students. He thought them probably red,

Picnic White Rock Lake Sept. Odio in charge. Probably Schmillie thought these "not the right people". Odio in charge. Mrs. C knew her story very well, knew Sarita, knew of size, history family, efforts of US people to get them education.

Isquierdo worked at cotton exchange, wife Nieman Marcus, name she thought of when I mentioned Crestview, Magellan Circle.

The Wlsker meeting was a Sunday night, when Castorr out of country. She knew o of and didn't go because children.

I told her my schedule and she or he will call me when he returns.

Machann young, handsome man. She thought mistake not to have older man spirituel adviser but high opinion him. She claims to know none of False C people, remembers name Howard she thinks from reading, remembers one of "students" at meeting was rather large (after I told her of fat Hall). Remembers none as unusually good speaker. Attended Johnny Martino meeting (39 mos Castor prison).

FBI, SS never spoke to either about this but FBI did on security checks on others. Thinks it ridiculous do not have Machann's name right.
